EXPERIENCE

FROM OCTOBER 2017 TO JUNE 2018
Back-end Python Dev. |
Start-Up Project on the Hackathon "Social Weekend"
Bot for VK and Telegram
Social Network
Blog Application
REST API

SKILLS

- **Programming knowledge**:
  Python, CSS3, JS, HTML5, Pandas
- **Frameworks**:
  Django, Rest API Framework, Bootstrap
- **OS**: Linux Ubuntu, Windows
- **Languages**: English (Intermediate B1)
- **Databases**: MySQL, PostgreSQL, SQLite

ACTIVITIES

In my free time I am working with other useful things: ML, try my brain solving logical problems and practice my English with foreigners. All the knowledge I use in real projects and I work on such projects until I get the desired result.
